Gas Piping Services strives to produce competent personnel to the gas and safety industry as a whole.

To this end, Gas Piping Services focuses on the Education, Training and Mentoring of all people in the LPGas, Natural and Compressed Gas industry.

All training will have SAFETY as the backbone within all the courses and will ensure that all delegates understand their accountability towards the public, their colleges and themselves.

Most of the training and / or skills courses are outcome bases and as such will require planning, commitment and time from the delegate and the employer to assess performances.

TRAINING - The act of changing behaviour and attitudes by imparting knowledge and skills - is an essential part of the strategy of any organization that wants or needs to move forward.

MISSION - To provide training and training material to meet the highest quality needs. To develop knowledge, skill and attitude and recognise prior learning in our trainees with the purpose of developing individuals into highly motivated, effective, efficient, productive and service focused employees who can truly be fulfilled in their careers.

VISION - We see a world of great opportunity for every individual with potential to grow and develop beyond his present reality. To empower our learners, to see beyond their present reality, to become creative and innovative. To have vision and passion that will see them through all endeavours.

We offer: Training at any venue within the Africa Continent.
Well qualified and experienced Facilitator. (AJ de Wet).
Authorised Gas Practitioners. Registered with the SAQCC (LPGI) and SAQA.

THE FOLLOWING IS TO ACCOMPANY THIS APPLICATION

Copy of valid ID (green book) or passport.
